

Software Release Notes

dS Smart Home mobile app V1.13

digitalSTROM AG uses Software Release Notes (SRN) to provide information about software changes and updates of existing products.

Document number	SRN-1.13
Date / Version	28.03.2022 / v1.1

Changes and Improvements

Android

- New: Limitation of the display period of energy and temperature data in the app. The cloud-based measured values in the app are limited to 1 month. Thereby, the measurement data in the dSS Configurator are still available over a longer period of time.
- New: The new GR-KL300 terminal is already selectable.
- Fixed: Scene highlights/statuses in Favorite Screen are now displayed correctly.
- Fixed: Problems with the definition of audio/video room buttons in connection with SW-SKM300 input and missing play/pause buttons as well as incorrect tile display of the buttons.
- Fixed: Multiple user accounts can be connected in the app again.
- Fixed: When removing a selected user account, the other user account is now correctly selected.
- Fixed: Detail info in 'Alerts&Warnings' was not clickable in the whole tile area.

iOS

- New: Limitation of the display period of energy and temperature data in the app. The cloud-based measured values in the app are limited to 1 month. Thereby, the measurement data in the dSS Configurator are still available over a longer period of time.
- New: The new GR-KL300 terminal is already selectable.
- Fixed: Scene highlights/statuses in Favorite Screen are now displayed correctly.
- Fixed local connection issues: Fixed disconnects to dSS, reduced loading time of room scenarios, fixed errors when switching from cloud to local connection, fixed missing display of rooms after forced local connection.
- Fixed: App crash when entering user identification as well as when opening the Connected Home screen.
- Fixed: Missing temperatures in cockpit for 'Weather&Temperature'.
- Fixed: Changing the blind position in a room had no effect on the blind device.
- Fixed: the room name in the 'Setup Light' menu was incorrectly hidden.
- Fixed: Shaking effect on tiles.
- Fixed: Scenes could not be added to Favorite Screen because the room list was empty.
- Fixed: In the 'Select Time Span' scroll menu in 'Temperatures&Measurements', the entry '12 Hours' was present twice.
- Fixed: If no energy measurement data is available, the user is correctly informed about it. 'No data available' is displayed.
- Energy graph: Unit 'Wh' is now also displayed correctly for energies <1kWh.

Other

The current state of our various cloud services can be seen online at <http://status.digitalstrom.com>. If you notice any complications with any of the cloud-based services, please inform yourself on this page.
